

**NEW EXHIBITOR: CROW WORKS RELEASES GEOMETRIC WORKSPACE AND OUTDOOR LINE  
May 2017**

**Killbuck, OH-** First impressions are everything. In our first year at Neocon, we'll be showcasing our Middle American grit and ingenuity, with a focus on locally-sourced natural materials that create meaning and a sense of place. We collaborate with architects and designers to bring their space to life, so we'll be bringing our point of view on creating experiences to the floor of NeoCon 2017.

Our featured [Curated Collection](#) items will include some of our newest releases, like our [Geometric workspace products](#), featuring minimalist profiles with bold, angular lines. We'll also be highlighting our new [Outdoor line](#), combining modern industrial design with durability and weather-resistance.

Our client-first approach comes with us to NeoCon too; rather than expecting our visitors to lug around a large, material-heavy sample box, we'll have samples shipped to your office, ready to review when you return from NeoCon. Stop by the [Crow Works booth](#) (7-3084) to experience our space and learn how we're restoring Middle American grit and ingenuity first-hand.

### **About Crow Works**

Crow Works is a design-centric manufacturing company in Central Ohio, specializing in retail, restaurant, commercial and hospitality industries.
