

Corda - designed by Cuno Frommherz

Corda from the Tonon collection is a multi-use, stackable chair that can be used both indoors and outdoors - a durable blend of natural and man-made materials.

The chair is available in three colors, comprising of a painted steel frame with a woven seat and back. There are two different types of hand woven finishes to select from.

The simplest version recalls the form of a fishing net, whilst the more elaborate weave uses a series of knots similar to those used on sailboats, or ropes used in mountaineering.

Dimensions: 32.7"(h) x 20.5"(w) x 22.4"(d)

Release Date: March 2018
