

# Light Tape®

Electro-LuminX®

## CREATE A PASSAGEWAY TO STARDOM WITH LIGHT TAPE!

[Dynamic Productions USA](#) was tasked with creating a design for a big NYC fan appreciation event. Following their mission, to be a one stop shop for top quality production, Dynamic turned to Light Tape® to deliver a lighting solution that would create a visually stunning effect while remaining easy to install in a limited time window. 700 feet of 6" Extreme Caribbean Blue Light Tape® created a glowing tunnel, leading patrons to the main event.

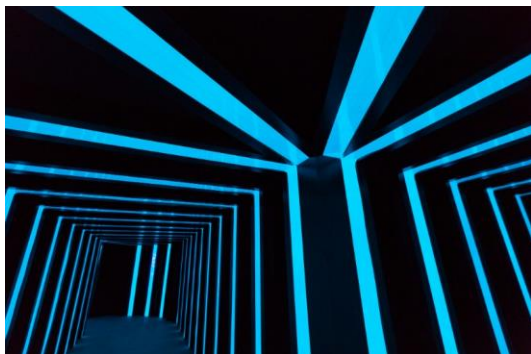

Check out the time-lapse of this installation here. Quick and easy with a WOW effect.

---

## **INSTALLATION IS SIMPLE.**

Light Tape® can be easily applied just about anywhere with double-sided adhesive. Available in long rolls, you can cut to length on-site with scissors. One power supply for multiple lengths with DMX 512 control.

## **EVEN LIGHT WITH NO DIFFUSION.**

Verticals, horizontals, floors... Light Tape® does it all. Light as a feather and flatter than a credit card, you can quickly install with no diffuser or lens needed.
