## **PICTURE PERFECT**

### ***View Projected Media and Write on Live Screens with Clarus Glassboards Revolutionary Projection Glass***

**Fort Worth, TX (April XX, 2017)** – Presentations are larger than life when Clarus Glassboards, the leading manufacturer and innovator of glass dry-erase and architectural systems, takes an evolutionary step in Glassboards. Clarus introduces Projection Glass, the cutting-edge Glassboard that combines the performance of glass and the elegance of a screen to project your media while writing on live screens.

The innovative Projection Glass was the obvious next step for the company that spearheads visual communication. Projection Glass has a projector friendly surface that reduces glare for ultimate clarity and view-ability of projected media. The patented assembly allows for diffusion of light, and a crisp, professional-quality image offers the highest performing projectable glass surface in the market. Clarus Glassboards is revolutionizing the way we communicate with breakthrough glass products that individuate a space with clarity, function and a chic and unique interior design.

Like all Clarus products, Projection Glass is fully customized. Available in silk and 3 standard sizes for ideal viewing areas, it installs easily into any drywall surface with no requirements for reinforced walls. Projection Glass, made with eco-friendly and recyclable materials, is also crafted to fit your picture perfectly, offering an array of aspect ratios to fit every space, and a variety of palettes for stunning color. Most importantly, every client receives white-glove service when they purchase.

Committed to sustainable products and manufacturing processes, Clarus is sold through dealers across the USA and throughout the world. Showrooms can be viewed in LA, San Francisco, Chicago, Dallas, and New York City. Stain-free surfaces ensure your Glassboards will last the life of the wall.
