

FOR IMMEDIATE RELEASE

## Introducing Corby

The Corby collection consists of wood veneer desks, tables and storage elements. Christopher Wright has reflected on the mid-century modern vernacular to design a unique series of workplace furnishings that reward a new generation of pioneers and nation builders. Corby's mid-century styling and effortless design are expressed in its subtle details. Flared legs add a transitional look to these contemporary work space furniture pieces. The timeless, yet modern design features rich materials that create a handcrafted visual.

The Corby Collection has a simple and straightforward product map with preconfigured components that make it easy to specify and install. Corby includes freestanding desks and tables for standalone workspace configurations with the ability to extend the Corby style to meeting rooms throughout the office.

Corby is available in twenty finishes with four different species of premium, architectural grade wood veneer and solid wood edges on all principle surfaces. The legs are constructed of matching wood solids with concealed metal connections. The series is Greenguard Gold certified and ANSI-BIFMA Level 3 certified.
