FitDesk®

FitDesk Pro Release

ERGOCHIEF™ and FitDesk® introduced FitDesk Pro, the latest result of a long-standing partnership. FitDesk Pro is the ultimate office desk for anyone who wants to bring activeness, health and productivity to their workspace. FitDesk Pro features the quiet and reliable, twin belt, high-velocity flywheel bike and ERGOCHIEF's signature SNAP Technology height adjustable desk designed exclusively for FitDesk Pro. For those who want to have a more balanced work life and want to be in full control of their workspace.

Features

FitDesk Pro, like the latest FitDesk's Bikes, comes build in full aluminium and steel gear to provide reliable operations; the ingenious whisper belts provide a smooth and quiet operation while providing a big bike feeling. The FitDesk Pro Desk is created from the same strong aluminium built of the single column height adjustable desk found in ERGOCHIEF's Bouge Original. The single column gas-spring powered height adjustment mechanism allows a fast- silent transition from sit - stand - bike positions.

This deep integration unrivalled a completely new way to work at an office. The bike can integrate and separate from the desk in a matter of seconds. Giving you full command of your work style.
