

An Oasis of calm, straight from London, England, to NeoCon, Chicago.

Imagine hush, in a world of rush. Now imagine experiencing it in an open plan office, then discover the reality, straight from London, England.

Tranquility is hard to find in open plan offices, but the latest collection from leading British office furniture experts **Frem Group** offers a haven of calm, in their range of phone booths and meeting pods designs.

Frem's original Oasis Phone Booth is inspired by the iconic British Phone Box, which has brightened up High Streets across Great Britain for nearly 100 years. Frem's Oasis Phone Booth is a thoroughly modern space, however, providing the perfect peaceful place for a phone call or video conference. The self-contained booth gives the user absolute calm, and total privacy, with top of the range acoustically absorbent materials for uninterrupted focus.

The Oasis Phone Booth has been such a success, both sides of the Atlantic. Frem have developed a range of complementary products, to be launched at **NeoCon, The Mart, Chicago, from June 12th- 14th.**

The Oasis Collection will comprise of three ranges: Oasis Linear, Oasis Soft and Oasis Sky, each designed to give customers space to think.

Oasis Linear includes the new and improved Phone Booth and a collection of Duo and Team Booths. The range is available in fabric as standard with the option of either a laminate or veneer exterior for a bold contemporary look. All Phone Booths have a smart, unique multi-touch interface to control the lighting, fan, and booking facility. The open fronted Team Booth, gives enough privacy for informal functions: from a meeting space to a chill out room. You could even add a bed for power naps.

Oasis Soft is upholstered in tactile, sound-absorbing fabric, to give a softer, homely feel. With a wide range of colours and fabrics to choose from, each comes with relaxed curved corners. The Oasis Soft portfolio covers a wide range of needs from low level hubs and open booths, to fully enclosed meeting pods. Both open booths and meeting pods come with the option of either an open fixed louvre ceiling or stretched fabric with diffused ambient lighting.

Lastly, **Oasis Sky** is a unique premium range of external pods which allow businesses to create additional office space from under-utilised outside space. It's distinctive contemporary style certainly makes it stand out in a crowd.

Acoustic control for peace and privacy

The acoustically absorbent multi-layer panel system results in an increase in speech privacy by reducing excessive reverberation within the space. The hard surface on the panel exterior combined with the 2.5mm rubber layer helps block the transmission of unwanted sound from the outside.

The combination of both absorption and blocking results in a much more comfortable working environment.

Calm comes as standard

The Oasis Collection offers many standard features, like hydraulically closing doors, LED lighting and an air circulation fan. Optional extras include integrated multi-touch screens, power modules, seat sensors, and meeting booking systems.

Frem's in-house design team created the Oasis Collection to counteract some of the more challenging aspects of open plan offices. They designed the range to meet the needs of modern working practices with two distinctive styles: sleek and contemporary, or soft and domestic.

Our expanded Oasis range offers customers more flexibility indoors or outdoors, single occupancy through to team collaboration. Whether the soothing curves of the Soft range, or the sophisticated good looks of the Linear range, they are easily built within an existing open plan space, to provide an oasis of quiet and calm.

Be the first to experience the Oasis Collection, by visiting Frem Group's stand at 7-4124, NeoCon.

Look out for our Oasis Linear Phone Booth, which will be specially decorated to celebrate Frem's great British heritage. Relax in our Oasis Linear Duo Booth and Oasis Soft Team Booth to find out more about our collection. Of course, every piece of furniture Frem designs can be customized to your specification, so chat to our team about the different options and sizes available, so you can create your own Oasis of calm, anywhere in your business.
