

## **Safco®–Mayline® Adds Two New Products to the Active Collection**

**Minneapolis (May, 2018):** Safco®–Mayline® is excited to announce the addition of Fidget™ and Twister™ Active Seating to the Active Collection.

Fidget and Twister are both ideal seats for active and engaged work. They are designed with a minimalistic aesthetic that helps encourage users to sit upright and fidget, which helps to promote better posture and more movement throughout the day. Both seats feature anti-skid rubber grips on the base to ensure a steady and safe seat, even during active movements.

Fidget Active Seating is available in three sizes to suit a variety of user heights, making it a great option for classrooms as well as common spaces within the workplace. The seat also features sitz bone contour guides, making it easy to sit correctly and comfortably on the chair.

Twister Active Seating has a bold architectural design that adds a unique look to any space. It also features an easy-carry nylon webbing handle for portability and easy reconfiguration of space.

Both seats have a lightweight design that makes it easy for them to be carried between workspaces or to reconfigure existing spaces to cater to various project needs. These versatile chairs make it easy to transform traditional work and learning areas into active, engaged spaces that easily foster collaboration and creativity.

### **About Safco–Mayline**

With 125 years of industry knowledge, Safco®–Mayline® offers an array of furniture solutions to create top-notch spaces everyone will be talking about. We deliver a memorable experience because we truly care about how and where people work. To create work spaces that energize and inspire people, we use market knowledge and employee know-how to spread workspace product innovation. We maintain a culture of spirited professionalism to ensure that everyone receives a positive, memorable experience - customer and employee alike.

### **The Active Collection**

These products are part of the Active Collection line; The Active Collection products are designed to promote active movement throughout the day and engage major muscle groups to help combat the negative effects of inactivity in many workplace and learning settings.
