Gardner Glass Products Launches Dreamwalls Glass Markerboards

North Wilkesboro, NC - [Gardner Glass Products, Inc](http://www.gardnerglass.com) recently announced the launch of a website specifically focused on their line of glass markerboards known as Dreamwalls Glass Markerboards.

Dreamwalls was created in 2000 as the over-arching umbrella brand for Gardner Glass products sold to the expanding decorative glass market. Gardner Glass Products has been making mirrors since 1962 and back-painted glass since 2007.

"<http://www.DWglassMarkerboards.com> was created out of the need to clarify to people already familiar with our interior architectural glass capabilities, that yes, we also do dry erase boards," stated Vice President of Marketing for Gardner Glass Products, Mandy Marxen.

"With all the options our experience and capabilities can provide, it just made sense to create a stand-alone site that spoke to the needs of the glass markerboard customer," stated Marxen. "Customers trust us as the industry name in decorative glass already, so its really about making it easier to serve their glass markerboard needs."

The website features a wide variety of options, a look book of installations, and inspiration for designers of healthcare, educational, and office interiors. It also provides a step-by-step quote form to get a quote on a custom glass markerboard within 24 hours.

Gardner Glass Products' Dreamwalls Glass Markerboards can be sold direct, or through glass shops and glass distributors nationwide.

###
