FOR USE UPON RECEIPT — 2017

MAGNUSON GROUP TAKES YOU BACK TO THE “BARE NECESSITIES” WITH NEW SLIDE FAMILY OF COAT TREES AND WALL-MOUNTED COAT STRIPS

New Product Introduction: **SLIDE Family** — tubular shaped, contemporary-design coat trees and wall-mounted coat strips.

Design: Designers Marc van Nederpelt, Wiebe Boonstra and Martijn Hoogendijk of Dumoffice, Amsterdam.

Manufacturer: Van Esch, The Netherlands. Distributed throughout North America by Magnuson Group, founded 1984.

Product Applications: **SLIDE** is ideal for applications where constant use calls for quality construction, in a multi-function, contemporary design aesthetic. Such applications include corporate, government and medical offices; reception areas and waiting rooms; casual restaurants; bars, meeting halls, school facilities, residential and

the like. **SLIDE** freestanding units can be a unique solution for functional space division.

Product Description: The idea behind **SLIDE** is simple. The design consists of either wall mounted or freestanding white powder coated steel tubes that use a series of height adjustable strengthened plastic hooks for garment storage. Use **SLIDE** individually or in groupings, as self-contained solutions for larger, higher-volume, or multi-room applications.

SLIDE Coat Racks are freestanding coat trees in three models, characterized by slim metal tubular poles anchored to weighted metal bases. Strategically placed repositionable plastic garment hooks are ideal for hanging hats, scarves, coats and jackets of any kind.

SLIDE Coat Strips are wall-mounted garment hangers in two sizes, characterized by slim metal tubular poles anchored to the wall via round base plates. Four or five plastic hooks can mount in various positions for hanging coats, jackets, scarves, hats and the like.

Construction & Finishes: Each **SLIDE Family** design is comprised of white powder-coated steel with white plastic hooks.

Models include:

- **SLIDE G** is a single coat tree with 6 plastic hooks. It stands 70-inches high, is 13 3/4-inches in diameter, and weighs 21 pounds.
- **SLIDE G2** is a double coat tree with 12 plastic hooks. It stands 67 5/8-inches high, is 21-1/2-inches wide by 9 13/16-inches deep and weighs 30 pounds.
- **SLIDE G3** is a triple coat tree with 18 plastic hooks. It stands 67 5/8-inches high, is 33 3/8-inches wide by 9 3/4-inches deep and weighs 45 pounds.
- **SLIDE W1** is a wall-mounted coat strip with 4 plastic hooks. It is 24 1/4-inches high, 4 5/8-inches wide by 7 1/2-inches deep and weighs 4 pounds.
