FOR IMMEDIATE RELEASE

Chief Brings Dynamic Height Adjust to NeoCon

Greater Accessibility to Technology in the Office Available Now

Eden Prairie, Minn., USA (MAY 2017) - www.milestone.com - Chief, an industry leader in AV mounting solutions, will display the Fusion Dynamic Height Adjust Mounts at NeoCon Booth 7-4133. The mounts provide instant, tool-free height adjustment and greater accessibility to interactive displays. [DHA Mounts](#) are faster to position than electric display mounts and can be combined with a range of fusion accessories.

"Interactive displays are taking a bigger role in many AV applications," said Kathryn Gaskell, Senior Product Manager. "Customers wanted greater flexibility in offering this technology in corporate and education environments. The height adjustment feature safely raises and lowers the display with almost no effort."

Features include;

- [Mobile, wall](#) and [floor-supported](#) solutions available
- Height adjustable box allows up to 15.75" (400 mm) of vertical adjustment instantly
- Starting height can be set at 3" (76 mm) intervals over a span of 12" (305 mm) for the cart and floor support solutions
- Storage space in the floor-support and cart solutions
- A full line of accessories can be installed with the mount and the entire unit can be adjusted together – including shelves, CPU holders and speaker adapters
- Integrated security flag
- Easy grip handles and locking flag for easy transportation (cart only)

Learn more at www.milestone.com/FusionDynamic. See the solutions in person at NeoCon Booth 7-4133.
