

**Innovative Power Solutions from Mockett**

**PCS64 – Illuminated Pop-Up Power Dock**

New PCS64 from Mockett – Press to pop up to access three power outlets, then press to click closed below the surface when not in use. Easy installation into any type of furniture – drill a 3 3/4" hole, drop in from the top, and tighten from underneath with a locking ring. Then plug and play!

Illuminated power tower has an LED powered trim ring that gives a soft blue glow, making it easy to spot in any location even when in the closed position. Enclosed cylinder protects the unit while under the surface in the closed position and is activated by a gas spring to pop up for access. Includes circuit breaker protection and reset switch.

Overall: 4 7/16" diameter

Cut Out: 3 3/4" diameter

9 ft. electrical cord

Recommended table thickness: 1/2" minimum to 2" maximum.

Available in Black or Metallic Silver.
