NEW Riviera BH Lounger for Intensive Use Environments
Behavioral Health Seating with Residential Appeal

Ontario, Canada - Stance Healthcare announced today they will be launching a Behavioral Healthcare version of their popular Riviera Lounge Chair. The Behavioral Healthcare version of the lounge chair will officially launch next month, in advance of its showing at one of the most recognizable tradeshows in commercial design – NeoCon 2017.

“Research has indicated that layout, design and structure has an effect on patient outcomes, so healthcare facilities are shifting design to create spaces that feel less institutional and more like home. We continue to contribute to that movement with innovative product offerings such as the Riviera” says President, Carl Kennedy. “We were able to take one of our most popular home-like lounge collections and modify it for intensive use environments. So it has all the comforts of home - without sacrificing safety and security considerations.”

The Riviera BH Lounge Chair, designed specifically for Behavioral Health environments, has all the comfort and transitional style of the original, but includes enhanced durability and safety features:

- No exposed fasteners and upholstery staples
- Non-removable seat cushions and legs

To experience the NEW Riviera Lounge Chair, specifically designed for Behavioral Health Environments, visit Stance Healthcare (booth 7-2062) at NeoCon 2017 from June 12 – 14 at The Mart in Chicago. For show information please visit www.neocon.com.

Watch for the hashtag #RvrBH on Stance Healthcare’s social media sites to learn more about the Riviera Behavioral Health Seating Collection.
