

Roca 100 Years: Keep celebrating with us @Neocon 2017

With a century of history, today, Roca Tile USA is a world-wide leader in manufacturing, distributing and marketing of high-quality ceramic and porcelain tile.

We are turning 100 this year and we want to be closer than ever to the professionals of the design industry that make it possible and always showed their support.

By being present at NEOCON 2017 in the Merchandise Mart we want to keep proving that Design has been an integral part of the Roca brand. The Company prides itself on its continued investment in this area through its main innovation platforms: Roca Galleries & The Roca Design Center, with the collaboration of highly prestigious architects and designers in the development of our products. Some of the most outstanding partnerships we have built over the years have been with the visionary Zaha Hadid, Herzog and Demeuron, Rafael Moneo, and David Chipperfield.

We are looking forward to creating a greater awareness of our brands, new products and upcoming projects, as well as sharing more about our Company's culture with the attendees to Neocon 2017, 12-14 June.
