Symbiote Adjustable Tables and Lab Products at NeoCon

ZEELAND, MICH., USA—Spring 2018—Symbiote, a manufacturer of innovative lab furniture, announces new table and lab products at this year's NeoCon World's Trade Fair in Chicago. Depending on your perspective, the word "lab" can be a variety of meanings. Product development, research and prototyping labs exist beyond the traditional office and this is where Symbiote furniture fits. Our products are intuitively designed for a particular process, whether it's a Life Science or Healthcare lab, Tech or Aerospace application. Visit Symbiote on floor 7 of the Merchandise Mart, space 1063 on June 11-12-13.

Release Date: Summer 2018
Ball valves and hoses
Lab faucets
Drain boards
Eyewash stations
Stainless steel and epoxy sinks
Vertical utility chase

Symbiote was founded in 1984 to develop custom solutions to compliment the Herman Miller Action Factory product line. This led to designing innovative lab furniture for the Life Science, Tech and Aerospace markets. Designs include mobile workstations, height adjustable tables, shelving, storage and custom products.
