

TAJ Flooring Announces New Website Launch

The new and completely redesigned website offers new collections, Revit file download and free samples.

Mar 17, 2017, 8:00 AM CST from [TAJ Flooring, Inc.](#)

Elgin, IL, Mar 17, 2017/ -- TAJ Flooring, Inc., a commercial flooring supplier, announced the launch of its newly revamped website. The redesigned website has a clean uncluttered design, improved functionality and enhanced rich content. You can view the latest collections, order free samples, download a Revit file and find a volume of product data. The new website went live March 15, 2017 and is located at the same address: <http://www.tajflooring.com/>.

“We have introduced a lot of new products over a very short period of time,” said Joe Polito, Director of Sales for TAJ. “The timing was perfect for us to redesign our website with an eye toward quality imagery and functionality to help us effectively expose the market to the evolution of our brand. Our overriding goal has always been to make it easy to use TAJ Flooring products. To that end, we have added room scene renderings for each of our products to assist designers with scale and perspective and added Revit files to ease the access to all the detailed information required in the specification process. We’re very pleased with the outcome.”

TAJ's new website will be updated on a regular basis with news of product launches, installation images and upcoming events. Visitors are encouraged to explore the website at <http://www.tajflooring.com/>
