New Movable Wall from PS Furniture Means Portable Privacy for Open Spaces

MILWAUKEE, WI – June 1, 2017 – PS Furniture, makers of innovative commercial furniture for flexible spaces, today introduced WALST™ – their new line of wheeled acoustical lightweight screens. WALST™ are high-quality, portable partitions that can easily be positioned to create private areas within a larger open concept space.

Designed to reduce visual distractions for a standing male (up to the 90th percentile), WALST not only provides visual privacy, but also helps control noisy environments through its use of patented Revolution® core technology. WALST™ are made of a proprietary lightweight composite core wrapped in layers of acoustic materials. This carefully studied sandwich of materials provides optimal acoustic damping in a panel that is thinner than most. WALST™ are strong and stiff but still incredibly light and easy to move.

WALST™ come in two configurations:

- WALST™ – a single panel unit that is 38 inches long, 68 inches high, 1 inch wide and weighs 39lbs.
- WALST-X™ – a double panel configuration that folds out to 62 inches in length, is 68 inches high, 1 inch wide and weighs 49lbs.

Available in a variety of fabrics, woods, and colors, WALST™ can be customized to fit a variety of environments. The integrated metal pull handles come in black and silver powdercoat. And the natural wood wheels are available in white wash, honey, natural wood, cherry and dark brown. Further product details are available at <http://www.psfurniture.com/wals> or by calling 1.800.762.0415.

About PS Furniture

PS Furniture is a U.S. based manufacturer and supplier to the contract furniture market. The company's tagline "Furniture for flexible spaces" reflects their commitment to providing furniture that makes it easy to get more use out of today's multi-use environments. In 2016, PS Furniture leveraged its design partnerships to win a best of NeoCon award for their last new product: Müm™.
