

FOR IMMEDIATE RELEASE

## Introducing Zook Tables

The Zook table series offers options for both individual and group study. The unique surface shapes naturally encourage collaboration and create learning environments. Group tables with optional power, USB charging ports and/or data accommodate four and six person teams; cable towers are designed to accommodate common size floor monuments. Power and data options are delivered to the table surface to connect mobile devices for multiple users.

Zook responds to the ways students learn today. From traditional lectures to breakout sessions or round table discussions, Zook adaptable tables can be configured to accommodate a variety of teaching and learning styles. Lightweight and mobile, Zook adaptable tables are easy to move around and can be handled by one person. Four shape options offer multiple configurations, perfect for group work or individual study. An array of finish options for Zook tables include bold new finish selections - available in high pressure laminate only.

Zook tables are Level 2 and Greenguard certified, and backed by Global's lifetime warranty.
