

## CHICAGO

### Students land gallery

Students in furniture design will get a rare opportunity at the NeoCon World's Trade Fair June 14-16 in Chicago — their own gallery. "The Furniture Revolution Gallery will display prototypes of students' furniture designs on the NeoCon show floor, which draws nearly 40,000 trade and industry professionals over the three-day period," said Sara O'Hare, director of student programs and events for NeoCon. The event is the largest in North America for the office furniture industry. Get details at (800) 677-6278. NeoCon is only open to trade professionals with credentials.
