### FOR IMMEDIATE RELEASE

#### Introducing the Infiniti Collection

WADENA, MN—June, 2019—It's no secret that we are in the middle of a retro revival! Tubular furniture, inspired by innovative Bauhaus designs, are making a bold statement on stylish porches and patios across the country.

The sculpted curves of Homecrest's new Infiniti collection are vintage in design but feature modern

Sensation sling technology for lasting comfort in a sleek profile. Infiniti offers a streamlined contour that pairs perfectly with our double layer Sensation slings to offer deep-seating comfort with quick dry, low-maintenance construction. The use of Homecrest's exclusive Sensation sling fabrics which feature exceptional shape retention and surface memory, paired with our ergonomically contoured double layer slings, creates the most comfortable outdoor sling chairs on the market. This modular collection includes a cozy chat chair and coffee, side and end tables for endless configuration options. The high-style tubular frame is available in all of Homecrest's frame finishes. View other great Homecrest products at [www.homecrest.com](http://www.homecrest.com). All Homecrest products are made in the USA.
