NeoCon Showroom #3-115

Inform designed by Davis Design Team

Inform's effortless beauty is carried throughout a wide range of tables and benches that uniquely cater to the flexible commercial spaces of the 21st century. These informal, working, communal tables provide all of the functionality needed in a modern space while maintaining an unmatched level of beauty and style.

Craftsmanship that includes solid wood, storage bins, and versatile power options elevate this line from simple communal tables to functioning, active work spaces. The relaxed, residential design brings a softness to commercial interiors while providing dynamic work spaces. Inform's elegantly versatile style means it could fit into any environment from a boardroom to a dining room.

Inform's inviting form features soft radial curves and clean lines. This design, full of simplicity and versatility, works in a variety of spaces and can be paired with any interior trend. Inform is offered in working height and bar height tables, occasional tables, and bench seating.

Supporting the developing ways in which we work and function, Inform offers highly flexible, adaptable options for power solutions and storage. A variety of power options include mobile units and different power strip options, which include single power outlets and under surface edge power units. The tables offer storage bins set into the table top to discretely stow away items. The inset bins also come with power capability and matching lids that are routed for easy cord management. Inform creates a dynamic, effective work space for all applications.
