INTO CONCEPT AWARDED FROM THE STRONG GROWTH

Finland's biggest business newspaper Kauppalehti awarded the office furniture company INTO Concept from the strong growth with a mention as "the second strongest Finnish growth company in the year 2019". Gaming company Small Giant Games took the first place, and the MaaS Global, known for the Whim application, got the third place.

"The office furniture company INTO Concept, founded by Hanna Gullstén and Jari Inkinen, has grown by 510 percent over the past three years.", [Kauppalehti writes](#).

"Customers are clearly intrigued about a furniture concept that solves not just one problem, but the needs of the entire space at once," says CEO Jari Inkinen. "The competition is hard, but there is always a demand for quality products."

We at INTO Concept are delighted, grateful, and proud to receive this recognition.

INTO the Nordic Silence furniture selection has been recognized with the Fennia Prize Honourable mention. The Fennia Prize is a design competition for companies and organizations to support the creation of high-standard products and services.
