## Join Symbiote at the NeoCon Trade Show & Conference

ZEELAND, MICH., USA—January 2019—[Symbiote will be exhibiting at Booth 7-1063](#) at the NeoCon trade show and conference in Chicago, June 10-12. The annual event draws people from all over the world to see innovative solutions for the workplace and lab environments.

[Symbiote](#) provides lab planning and furniture solutions for Clinical, R&D, Education, Healthcare, Pharmacy and Life Science applications. Products include multi-functional benching, height adjustable tables and modular casegoods.

“Make sure to visit the Exhibit Hall on the 7th floor. This floor has about 300 exhibitors in five categories, including Symbiote. The NeoCon trade show provides a great opportunity to get our products in front of Medical Planners, Contractors, Facility Managers, Interior Designers and other industry personnel looking to discover the latest modular lab furniture,” said [Bob Kubasiak, Sales and Marketing Director](#). “This is our 24th year exhibiting. We are highlighting ErgoStat Pro, which provides a height adjustable, electric / battery powered workstation for office and lab workers. Attendees can get a demo of ErgoStat Pro by visiting us at Booth 7-1063 during the show.”

For more information about Symbiote, the [ErgoStat Pro](#) and our complete line of products visit [www.symbiote.com/products](http://www.symbiote.com/products).

Symbiote was founded in 1984 to develop custom solutions for Herman Miller’s Action Factory product lines. This led to designing lab furniture for Life Science, Tech and Aerospace. Headquartered in Zeeland, Michigan, Symbiote serves the U.S. market through a network of dealers and sales representatives.
