Luxxbox Debuts New Acoustic Solutions at NeoCon 2019

WAFFLES WALL TILES ADDRESS ACOUSTIC NEEDS, CREATING A MORE PRODUCTIVE AND COMFORTABLE WORK ENVIRONMENT

(Pictured: Luxxbox's new acoustic wall tiles – Waffle Discs)

[Luxxbox](#), a leading designer of acoustic solutions, announced that it will be debuting new acoustic solutions at NeoCon 2019, including the new Waffles Wall Tile. Waffles, along with Luxxbox's other new products, will be on display at booth #7-4078 on the 7th floor, The Mart in Chicago, Illinois, June 10-12, 2019.

Waffles Wall Tiles are one of Luxxbox's more playful acoustic solutions, offering unique visual appeal while reducing reverberated noise in open space, creating a more comfortable work environment. Waffles feature a noise reduction coefficient (NRC) of 0.45+, offering significant absorption over a wide range of frequencies.

Available in over 40 mesmerizing colors, Waffles is offered in two distinct designs—Discs or Leaves—and are available in a variety of sizes to cater to any interior space.

Waffle Discs are individual, circular units that can be wall mounted, back lit, or suspending independently or in multiples to create a unique design focal point. The various sizes ranging from 17.7”-39.3” in diameter, allow for additional dynamic visuals when mixing the smaller and larger discs. With the option of either one or two sides of acoustic covering, as well as with or without striking LED illumination, Waffle Discs simultaneously address acoustic and lighting needs.

Waffle Leaves are free-standing, leaf-shaped noise management tools, with either one or two sides of acoustic covering. Offered in a variety of sizes, widths range from 1.5’-2.5’ and heights range from 3.9’-4.9’. Waffle Leaves can stand independently or be grouped in clusters varying heights, colors, and sizes to create a custom statement piece—the possibilities are endless.

Quality space and noise-management solutions make for happy environments. Luxxbox's acoustic lighting, baffles, and furniture products turn down the volume to increase productivity, creating happy, healthy workspaces the world over.
