A Faux Leather Work of Art

NappaTile set to showcase an original art installation at NeoCon 2019

Northvale, NJ. (May 2019) - NappaTile's showroom (suite 1064) will feature a faux leather work of art at NeoCon 2019. The exclusive display of faux leather wall tiles was carefully crafted in order to showcase the versatility and capabilities of the product. Designed by Design Director Aaron Mensik, the art installation is divided into ribbons of pattern and color – simplifying shapes and arranging them into specific patterns using unusual and bold color combinations. NappaTile is proud to continuously challenge how colors interact when paired together.

Stylized, unique, and oh so luxurious – NappaTile's showroom will be a showstopper at NeoCon 2019.

About the Company:

NappaTile - a Concertex company – develops unique and original designs using faux leather wall tiles. With a long history in faux leathers, the brand has expanded to include acoustic solutions for the contract and hospitality markets. With the luxurious appearance of real leather, and the durability and price of faux leather – Nappatile is dedicated to creating functional wall art.
