Waddell Furniture Adds More Space Division Solutions to Pallet Line-Up

Lebanon, OH – April 2019

Known for their display and space division solutions, Waddell Furniture is pleased to announce the inclusion of Pallet Wall and Pallet Mobile as part of their Pallet Collection. The two additions round out the Pallet Display space division solution launched at NeoCon 2017. Customers now have more exciting ways to bring function, collaboration, and mobility to their spaces.

Designed to fit the needs of today's open plan workspaces, the Pallet Collection provides space delineation while allowing environments to feel open and airy. In addition to being a beautiful way to divide space, Pallet allows users to create collaborative work environments for meetings, brainstorming sessions, or even impromptu workstations.

"The non-traditional ways people are working has pushed us to reimagine the possibilities of Pallet," commented Scott Bowers, Director of Product. "After the initial launch of Pallet Display, our customers asked us for more ways to use parts of the product in different ways. We took our expertise in using raw materials to produce multi-functional display solutions when we created the resimercial finish of Pallet Wall and Mobile, helping to create a space where you want to work."

Pallet Wall is a contemporary display solution that gives the look and feel of millwork furniture by adding a unique design element to a space, either resting on the floor or suspended on the wall. Pallet Mobile takes Wall a step further with industrial casters and optional accessories like a whiteboard for collaboration. Both Wall and Mobile work well alone or in tandem with Pallet Display.

Pallet space division furniture is available for customization with two wood species options, four stain finishes, three laminate choices, and a multitude of accessories. For more than a century craftsmen have been carefully constructing Waddell Display Cases in the time-honored tradition of Waddell quality. These skilled artisans use only the finest materials to manufacture a wide variety of display cases with the quality of fine furniture. Our craftsmen combine today's technology and designs with yesterday's personal commitment to constructing the finest USA made cases available.

About Waddell, a GMi Company

GMi Companies, headquartered in Lebanon, Ohio, is a leading US manufacturer of visual communication products and display solutions to help people communicate, collaborate and learn. Waddell manufactures display furniture in a variety of applications to meet any environment. Ghent products include whiteboards, glassboards, mobiles, tackboards, easels, enclosed message centers, and more. VividBoard custom dry-erase boards are used in healthcare as patient room boards to promote communication and patient satisfaction. All GMi Companies products are sold through dealers specializing in office and education throughout North America.
