

Spec™ Launches Jazzy, A Collaborative Plywood Chair

April 26, 2019

FOR IMMEDIATE RELEASE

Spec is expanding seating offering to meet the diverse needs of the contract office furniture dealer and designer community. The Jazzy chair has the looks and can complement all styles, with groove!

Jazzy comes as a needed option to Spec's seating collection, particularly to complement our favorite lines of collaborative tables: EndZone, Factory, Annex, and Manhattan. Combine contoured plywood shell in mid- and standard-backs with stackable dining, as well as café and bar height frames.

Finish options are vast, and Jazzy can become colorful and eye-catching in no time. Seventy-seven frame finish options, all nine standard Spec stains including clear coat, and hundreds of laminate options are available. Front and back laminate finishes can match or contrast, providing absolute creative freedom for designers of all tastes.

Spec's VP of Sales and Marketing Mike McLean is excited to see Jazzy set the tone in contract office interiors: "It's light, it's diverse in the identity that it can acquire; but most importantly, it is at a right price point."

Shipping September 1, 2019.

Spec, a prominent contract furniture manufacturer, was established in 1991 out of a desire to bring a unique customer-oriented approach to the contract marketplace. The company provides strong designs that excel at meeting all core requirements, together with a huge array of options, choices, price points and scales so Spec customers can specify the best possible solution.
